Digital Check Executive to Speak at 2008 NACHA Payments Conference

--John Gainer to discuss check electronification hardware--

Northfield, Ill., May 14, 2008 – Digital Check, a leading provider of [desktop check scanners](#) for the [remote deposit capture](#) and branch automation industry, announced John Gainer, executive vice president at Digital Check, is participating in a panel at the [2008 NACHA Payments](#) conference at the MGM Grand in Las Vegas. The panel is entitled, “Check Electronification Hardware – Fact, Fiction and What You Need to Know,” and takes place on Tuesday, May 20, 2008 at 3:15 p.m. MST.

The panel focuses on check scanning hardware and its importance to the overall remote deposit capture solution. It explores the key considerations for scanning hardware including functionality, costs and pricing, deployment, service and support. Industry trends and the future of check electronification hardware will also be addressed

“Check scanning hardware is often overlooked as just a sub-segment of check electronification, but it can be the most critical component of remote deposit capture,” said Gainer. “I am pleased to join the panel at NACHA Payments and speak to attendees about the facts of scanning hardware, since it can determine the success or failure of the overall solution.”

The 2008 NACHA Payments conference focuses on the technological, economic and legal developments driving significant change in the payments industry and provides a forum for building relationships with industry experts. The conference offers a variety of educational sessions and panels, networking opportunities and insight into solutions for the electronic payments industry.

Digital Check recently introduced CheXpress™, an innovative new check scanner designed for the small business distributed check capture market. The device provides high quality image capture capabilities and has a number of enhancements for support of small business banking customers using remote deposit capture services. In addition, Digital Check

recently announced RDC QuickStart™, a unique financing program to assist in the promotion of remote deposit capture to small business customers.

About Digital Check

Digital Check is a leading manufacturer of distributed capture check scanners for branch automation and remote deposit capture applications. Digital Check's TellerScan® series of electronic scanners provide the highest quality images, MICR accuracy, reliability, and lowest cost of ownership within the industry. It was the first company to introduce a desktop distributed capture device for the Check 21 industry, first to deploy at a teller window in a top 10 U.S. bank and the only U.S.-based manufacturer. The company's scanners are available worldwide through a network of more than 70 Authorized Solutions Providers and are supported by Digital Check's comprehensive fulfillment, training, support, warranty and repair services. For more information call 847-446-2285 or visit the company's website at www.digitalcheck.com.
