Digital Check Expands International Footprint by Signing Italian Reseller, TCS S.r.L

- Innovative check scanners now offered throughout Italy -

NORTHFIELD, Ill., April 7, 2009 – [Digital Check](#), a provider of desktop check scanners and remote deposit capture technology to the financial industry, announced that [TCS S.r.L.](#) (Rome and Siena, Italy), a provider of document processing technology, is now an Authorized Digital Check Reseller to provide all Digital Check check scanners, including the award-winning [CheXpress® CX30](#), to medium and large financial institutions and government offices throughout Italy.

TCS selected Digital Check as the primary provider of check scanners due to the quality of Digital Check's products, its superior image quality and MICR, and its global brand recognition.

"The strategic decision to partner with Digital Check enables us to capitalize on our scanner applications and hardware experiences in order to pursue the Italian market with a high quality scanner line that is backed by an progressive and competitive company," said Marcello La Cava, director of operations for TCS. "The relationship also enhances our knowledge of integration and hardware personalization and provides us with a unique offering in our market."

"Beginning last year, Digital Check has increased its investment in international markets and is expanding its international footprint by strengthening relations with its partner base along with adding additional regional or country-specific resellers," said Alex Trombetta, managing director in the international sales division of Digital Check. "TCS is an ideal partner for Digital Check due to its experience in banking and public administration sector applications and its strong technical team that can provide integration support, maintenance and product customization."

About TCS S.r.L.

Rome and Siena, Italy-based TCS s.r.L. has operated in the document processing field since 1998. As a System Integrator, it focuses on document imaging and banking automation and is able to support complex projects and large installations. Its software applications include teller readers and scanners, turnkey systems for management checks and instruments and physical and electronic archiving of documents. TCS also developed with a new extract, transform, load (ETL) application with a European partner. Visit www.tcssrl.com for more information on TSC or visit www.fluidoetl.biz for more information on ETL.
